Mr. Haywood,

Attached please find a comment report from the Elephant Butte Irrigation District (EBID) concerning the Copper Flat Draft EIS. The EBID understands that the BLM has extended the comment period until April 4, 2016, but because the EBID has endeavored and prioritized to have comments prepared to meet the March 4 deadline, the comments are submitted now. The EBID will appreciate the BLM acknowledging receipt of these comments at the earliest opportunity.

The EBID looks forward to what is expected to be a thorough consideration by the BLM of these comments and others.

Thanks,

Erek
